
SAU #21 – BUSINESS OFFICE

TO: SOUTH HAMPTON SCHOOL BOARD
FROM: MATT FERREIRA
SUBJECT: SUPPLEMENTAL PUBLIC SCHOOL RESPONSE FUND
DATE: DECEMBER 3, 2020

As previously reported, SAU 21 received Elementary and Secondary School Emergency Relief (ESSER) funding in May 2020 as part of the CARES federal stimulus package. Winnacunnet received \$144,719, Seabrook received \$205,855, North Hampton received \$14,229, Hampton Falls received \$9,330, and South Hampton received \$0.

In addition, the State of New Hampshire is providing school districts funding via the Supplemental Public School Response Fund (SPSRF) – a total of \$45 million allocated to schools from the CARES Act. It is designed to provide relief and support for unanticipated costs associated with the safe opening and operation of schools during the COVID-19 pandemic and provides \$200 per student of funding.

SAU 21 received the following funds by district:

- Winnacunnet: \$214,400
- Seabrook: \$134,800
- North Hampton: \$65,800
- Hampton Falls: \$43,000
- South Hampton: \$22,800

The funds are treated as offsetting revenue. However, we are expected to document usage of application of monies. These funds can be applied to expenditures incurred between March 1, 2020, and December 30, 2020. The expenditures need to be COVID-19 related and cannot be previously budgeted or covered by a different grant.

A significant portion of these expenditures are for costs we originally received approval for FEMA reimbursement (which was subsequently rescinded when FEMA declared schools ineligible for funding) and other necessary costs that did not qualify for FEMA or were incurred later in the year. The following is a current list of these activities or usage of funds that qualify for the \$22,800 allocation:

Describe Materials, Supplies, Services Purchased
Sneeze Guard Acrylic Divider for one-on-one student assessments for Special Education
Student Desktop Guards

2 - Electrostatic Sprayers
Electrostatic Spray Solution
Carpet Shampoo
Hand sanitizer
Disinfectant wipes, disinfecting wipes to used by teachers/staff for disinfecting surfaces in their room.
